Lúcia de Carvalho

Na nenana, nenanaaaaaaaaaaaaa....

They say that politicians are worthless... But who chose them ??  
They say that people are uncultured and know nothing... But who hides things from them ??  
Now tell me, who is responsible for the situation ?  
The one who chose or the one who hide ??  
The one who misbehaved or the one who elected ??  
Vote ! Vote ! What if it was all a cheating game ?? What kills some people make others fater  
You have money ?? That's great !! With peace and health even more!  
Money buys bread but it buys no gratitude, so having a million doesn't make you a better citizen
