## HUMANS (translation EN)

**Topic :** *Some people say that humans are deeply bad. Others see humans as good persons who grow bad according to their environment... As for me, I've always been surprised by human complexity, his strength, weakness, wildness, part of divinity. Sometimes when we know why they act this way we understand them better though we still do not agree with the way they act. Also curious is, how life can seem so difficult, challenging for some people while other people seem happy, detached, peaceful....While writing this song a sentence was in mind « Even during wars some Humans find a way « to be happy »... : I wanna be part of them !!! »*

Some people are tired, others are betrayed , ôh people  
Some people are cruel, others manipulated, ôh people  
Some people are frustrated, muted people, ôh people  
And some people are happy...very happy !

Some people are are loved, others abusive, ôh people  
Some people are angry, people from nothing, ôh people  
Some people are spoiled, others are pure, ôh people  
And some people are happy....so happy !

Humans are rich everytime they give  
Humans are bestial  
Humans are noble-minded everytime they love... Humans are...

Some people are waiting, others moving forward, ôh people  
Some people are jumping, people running, ôh people  
Some people are swimming, people flying, ôh people  
And some people are happy,simply happy !

Some people are enjoying, taking the most of life, ôh people  
Some people are dreaming, realising that they are people, ôh people  
Some people are denying happiness, ôh Happy People !

Iarua randêrê (ai) / Iarua randêrê (ierua) Iarua randêrê (aia undé ierua)

Go ! Fly ! Live ! Life is great !  
Don't leave your heart pointless
